What's up this term?

Some more famous scouts.....

 John Major – Former Prime Minister of Britain
 Jacques Chirac - Politician (France)
 Bill Gates, Founder of Microsoft (Life Scout)

A few outstanding issues...
 Desperately seeking.... a Quarter Master. This position is even more critical as we are going to be replenishing some equipment soon. If you are interested, please chat to one of the scouters re this position.

Updating our website - we had no volunteers among the scouts. Peter Mcfarlane is going to post our newsletters on the site, but anyone looking to take over this portfolio, would be most welcome.

Welcome back to Cubs and Scouts and an exciting, adventurous 2008. Since not much has happened yet, this is simply a brief preview to the term's events. The next issue will be packed with stories and pictures as usual.
